

myradiotest

THE myradiotest DASHBOARD: ALL THE INFO YOU NEED - AT YOUR FINGERTIPS

Now, manage all your music research results in one easy application.

The myradiotest Dashboard provides full access to your music research from start to finish:

- Real time updates on your music panel – panel numbers by age and sex.
- Surveys selectable by date.
- Results for all surveys conducted and processed.
- Clear and precise song results.
- Music test result summary; with selectable key result comparisons.
- Individual song results; narrow down results to a single song, with access to its full history.
- Save and Share; Easy to read charts which can be downloaded to a number of different formats including CSV, Excel, PDF and PNG.
- Full, live, online technical support.
- Super convenient and useable on any device anywhere.

The myradiotest difference

- Results are delivered directly to you. With a range of well presented, colour coded charts that allow you to view and present your research data in a neat and professional manner.
- Easy to access and very user friendly, you have the ability to view, download and print your research directly. On any device, anywhere, at any time!
- The myradiotest dashboard category is a leading innovation - developed and designed for the end user.
